VIRUS & MALWARE PROTECTION ADD ON MODULE

We will manage your anti-virus and anti-malware protection by providing you with everything from high quality software to ensuring that they are updating and working correctly.

It is essential that you are protecting your network and data from malicious viruses, spyware, adware and Trojans. All of these could potentially ruin your data!

Not only do you need the right software, but you need to ensure that you are keeping your software updated to protect against new threats.

Protect includes:

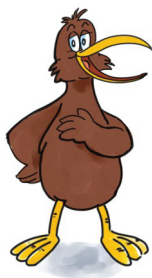

- Highly reviewed anti-virus and anti-malware software (supported by Kaspersky and Malwarebytes)
- Fixed fee including software and software maintenance
- Active monitoring of your anti-virus and anti-malware software
- Automatic updates
- Helpdesk
- From as little as \$8/PC per month
